

# Fun Learning!

(For reference only)

## ALL-IN-ONE LEARNING BOARD SERIES

- Our All-In-One Learning Board is made from tough and high-quality plastic material. It can hold 6 work cards between the clear top and the blue base for pattern-learning activities, very easy to store the cards.
- Its clear top is well designed with two grips for easy and safe grip in assembly and disassembly and the blue base has two knobs to hold the cards and clear top firmly.
- It can also be attached with other boards such as Double-Sided Magnetic Board, Tracing Board, Paper Roller and many more for different learning activities.
- Kids also develop communication skills as they play and talk about the pictures on the work cards.

WORK CARDS FOR GEAR KIT

## Function

The pictures on these work cards show the magic of the gears and how they are related to our everyday life.

They can be held between the clear top and the blue base of the learning board for kids to manipulate with the gear kit, which come from item # 1177-1 & # 1195-3 of this series to help-

- Recognize sizes.
- Recognize gears.
- Learn about the basic concept of power transmission.
- Develop eye-hand coordination.
- Develop fine motor skills.
- Develop communication skills.
