**IMPORTANT:**

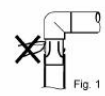

**Read through these simple instructions before starting assembly.**

- KEEP UNUSED PARTS IN THE MARKED BAG UNTIL USED.  
Some parts are very similar and can be confused.
- Assemble each section separately - as shown in the exploded drawings.
- If parts need to be loosened, use our "release pliers" to loosen the connection
- After each section is complete, assemble the sections together into the final unit.

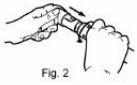

**ASSEMBLY & DISASSEMBLY**

**•How to Assemble & Disassemble Tube and Connector**

Note: Do not hold tube and connectors where you insert each piece as finger may be pinched.

- Push the connector into tube and turn the tube until a "click" is heard.

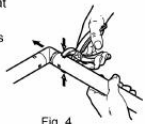

- Finish the assembly of both between.

Then insert the connectors into two separate tubes to complete a panel. (Fig. 3-1)

Do not assemble the tubes and connectors one by one. (Fig. 3-2)

- Put release pliers into holes that have safety lock pins coming through and squeeze the pliers to release the tube from the connector.

**•How to use U-Clamp Wall Attachment**

If you want to fasten the storage frame to a wall, use the U-Clamp Wall Attachment and screws as shown in Figs. 5 & 6."

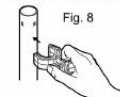

**•How to use Endcap for Tube**

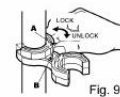

Insert Endcap into end of tube leg. (Fig. 7)

**•How to use Panel-Lock Connector**

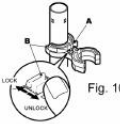

- Push panel-lock connector onto the side panel tube for joining two panels.

- Turn part A of the connector around the tube and then push B forward to lock it.

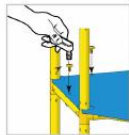

- Push part B and part A back to the original positions to unlock it and pull tube from connector for separating two panels.

**•How to assemble Shelf**

- Insert the shelf before you put each two levels of frame together.

- Tighten the shelf with tube screws and to the frame tube screw driver.
